SUB:- DEVELOPMENT OF VITAL IMPORT SUBSTITUTE ASSEMBLY.

Ref:- SP-700341 SO/T4/I Dt. 13-06-2007 Conveyor Transfer Bar Assly.
For 5.56 mm Bullet Assly. M/s P B 31/14 (Manurhin) to
Drg. No. AFK/BSP - 3357.

Dear Sir,

It is a matter of great pleasure that you have redesigned and developed above referred critical assembly used for vital defense manufacturing activity in the field of small arms ammunition at AFK. Equipments manufactured by your firm are of high standard/quality and have helped in attaining higher productivity and quality thereby saving a foreign exchange (to the tune of USD 2,00,000 approximately) and time for import.

Your efforts and precious help is highly commendable and we expect your continued association with our organization in the modification and development of various components and equipments. This will further enable us to manufacture higher quality products at competitive rates to meet the global challenges by Ordnance Factories.

Wishing you all the best.

(N. M. SESHADRI)
