Date: 02 Sep 2024

Dear

Shri Vijay,

HEMRL, Pune is a premier laboratory working on high energy materials research and responsible for development of most the explosives required by various DRDO laboratories.

Under the project "naval signal flares development", supply order was placed on your esteemed firm for the manufacture of water tube tester with design from HEMRL. The tester development required well equipped machines, higher quality standards, well trained manpower, prior experience in manufacturing test equipments, etc. The tester has been manufactured and installed at HEMRL, meeting all the desired requirements. Functional trials were also undertaken successfully in presence of DGNAI reps along with you.

On behalf of HEMRL, I place on record the appreciation for your efforts and keen interest taken by you and your team in indigenously manufacturing Water Tube Tester for Naval Signal Flares within short span of six months.

With best wishes,

Yours sincerely,

Shri Vijay Shah
